

# WIPER MOTOR WIRING

(Typical 12 V 2-speed)  
W/ Dash Wiper Switch

## 1970-1971 Beetle - Windshield Wiper Motor Connections..

switch connection	motor connection	description
30	30	POWER in from the "WIPER" connection on the fuse panel. The original stock color of this wire was dark green.
53a	53a	PARK position on the switch (53a) to PARK position on the wiper motor (53a).
31	31	chassis GROUND. The motor is grounded on terminal 31 through a grounding tab on the motor mount. This tab is for any extra system grounding or if the motor mount does not make a good ground. It is a common ground with terminal 31 on the wiper switch.
31b	31b	INTERNAL GROUND lead from 31b terminal on the switch to terminal 31b terminal on the wiper motor.
53	53	LOW SPEED connection from the 53 terminal on the switch to the 53 LOW SPEED terminal on the motor.
53b	53b	HIGH SPEED connection from the 53b terminal on the switch to the 53b HIGH SPEED terminal on the motor..
